

## Are there any requirements regarding presentations that I would like to upload to The Presentations Platform site?

Obviously you will want your presentations to be viewed in a most complete and clear possible manner, and that downloading them will proceed as efficiently as possible. In order to achieve this, your presentation files will need to meet the following requirements:

- [file format](#): PowerPoint-, Corel Presentations-, OpenOrg Impress- and/or PDF-format;
- [file size](#): max. of 10 MB per presentation file;
- all files should be accommodated with [complete descriptions](#), consisting of:
  - [a title and possibly a brief description](#) of the file;
  - [the name of the specialism](#) your presentation belongs to;
  - [your name or the name of your firm](#) and your domicile or place/country of business;
  - [your e-mail address](#) or that of your firm;
  - [your source](#) (book, author, designer, or such) on which your presentation file is based or has been inspired;
  - [your copyright statement](#) or other specification that explains the copyright regarding your file is held by you;The complete description could be listed in the document properties of the file, or could be integrated in the presentation file itself, for instance.
- files should be [protected against copying and modification by third parties](#). If so desired, print restrictions could also be assigned to these files.

[You are and will remain personally responsible for the security and the copyright protection measures](#) you take regarding the presentation files you post. In this respect, The Presentations Platform only fulfills a facilitating role, and shall, in accordance with our Terms of Use, not accept any liability concerning losses as a result of insufficient security or improper copyright protection measures. If so required, we can offer advice concerning security measures or other requirements regarding your presentation files.
